Form 3547 Requested

An open letter . . . from the president

Dear Friends:

Another Spring has passed! Or has it? We are still selling the "Spring" bulbs and plants every day, as our garden friends continue to plant. This continuing demand has prevented us from planting our surplus stock, so we are enclosing with this Fall Catalog a special insert, consisting of various so-called "Spring bulbs" which we still have in our controlled-humidity storage cellar in good viable condition, and which we are now closing out a specially reduced prices. The bulbs are in prime condition — our storage cellar is so designed that it can keep many bulbs in good condition for a year or more!

If you live in the South, or near-South, and danger of frost is eliminated, you can plant these bulbs freely without thought of further care or attention. If you live in the North a few precautions are in order. The hardy items (Lilies, Lycoris, Shrubs, etc.) will take hold, and you will not have to worry about them. Planting now, you will gain a year. The tender bulbs (Begonias, Caladiums, etc.) require a bit of care. Most of these are "Started" and you will enjoy ample bloom in the garden, but if you want to carry them into the house later, plunge them in pots in the garden on arrival, and lift them before danger of frost. At the bargain prices listed on Pages 20 and 21, you can afford to plant freely!

This year we have inserted on Page 2 an Index of Varieties found to be most popular, and which are available for immediate delivery all Fall.

We draw your attention, too, to the really special purchase of some 2,000 mature Cymbidium Orchids as described on Page 22. These are truly a "buy", and we only wish you could see the plants. A trial order will certainly convince you, and since almost everyone has conditions suitable for the culture of Cymbidiums, we strongly recommend you try them.

As usual, we are allowing Special Quantity Discounts to those who place their orders early. This allows us to get much of the paper work done before the busy shipping season starts; hence this discount, which applies only to the Imported Dutch Bulbs on Pages 3 through 15.

QUANTITY DISCOUNT

APPLY ONLY ON ORDERS RECEIVED ON, OR BEFORE AUGUST 31, 1960	{	If your order totals 25.00, deduct 10%
		If your order totals 50.00, deduct 12½%
		If your order totals 100.00, deduct 15%

These Discounts Apply Only to Items on Pages 3 to 15.

If you are the average buyer, you will compare prices before you purchase. We prefer that you do. You will notice our prices are appreciably lower than our competitors. The reason is not far to seek. Our volume is some 10 million bulbs a year; our overhead is low; we do not put out expensive catalogs in color. The net result: Savings which we pass on to you.

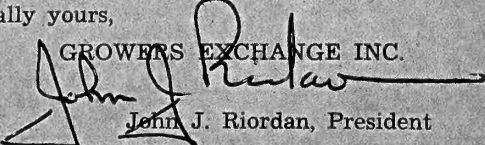

Bear in mind, too, that in the case of Tulips and Narcissi we offer only TOP SIZE bulbs. Many other firms offer First Size — one size smaller! Other items, such as Crocus and Hyacinths, come in so many different sizes that we offer a selection of sizes.

PLEASE ORDER EARLY! OUR FACILITIES ARE TAXED EACH SPRING AND FALL BY LATE ORDERS FROM NEW CUSTOMERS, AND IT WILL HELP US TO SERVE YOU IF YOU PLACE YOUR ORDER EARLY.

My sincere thanks, once again, to the many friends and customers who continue to favor us with their orders, and interesting letters.

Cordially yours,

GROWERS EXCHANGE INC.

Imported DUTCH HYACINTH BULBS

Varieties marked (1) are for earliest forcing; varieties marked (2) are for February-March forcing; the varieties marked (3) are for Easter forcing. Hyacinths come in **six sizes**, but the variation is so slight that we list only three. **EXHIBITION SIZE** is recommended for growing in hyacinth glasses, and for earliest forcing in pots; **SECOND SIZE** for later forcing in pots, or for extra large blooms in the garden; **BEDDING SIZE** is strictly for outdoor planting, and will produce good blooms. 25 at the 100 rate.

BEDDING SIZE — 15 to 16 centimeters
 20c each; \$2.00 per doz.; \$15.00 per 100

FRENCH ROMAN HYACINTHS

Imported from France

For easy indoor growing. Just place in pebbles, pure peat moss, or sand or soil if you prefer. Keep wet. Bulbs planted in September or October will bloom in November or December. Large bulbs.

Colors available: Pink, Blue, and White
 30c each; \$3.00 per doz.; \$20.00 per 100

SPECIALLY PREPARED HYACINTHS

These specially prepared Hyacinths undergo a special heat treatment enabling them to be forced about three weeks earlier than regular untreated Hyacinths. They are particularly recommended for Christmas, although some can be forced even earlier. In addition to being superb for pans, they also do well in hyacinth water glasses (see below).

Anne Marie. Delicate pink. Can force for Christmas.
Arentine Arendsen. Snow white. Can force for Christmas.
Bismarck. Sky blue. Can force for Christmas.
Delft Blue. Porcelain blue. Can force for Christmas.
Edelweiss. Pure white. Can force for Christmas.
Jan Bos. Bright red. Can force for Christmas.
L'Innocence. Pure white. Can force for Christmas.
Ostara. Pure blue. Can force for Christmas.
Pink Pearl. Deep rose pink. Can force for Christmas.
Princess Irene. Soft pink. Can force for January 5th.
Yellow Hammer. Soft yellow. Early.

All varieties of Specially Prepared Hyacinths must be ordered early, as they must be treated. We carry a limited stock for late orders.

We supply **First Size Bulbs**, 18 to 19 centimeters — the largest size available because the treatment involved causes some shrinkage.

50c each; \$5.00 per doz.; \$35.00 per 100

SPECIALLY PREPARED MINIATURE (CYNTHELLA) HYACINTHS

These specially prepared Miniature hyacinths produce elegant small spikes, and are ideally suited for early forcing in home or greenhouse. We will make up a collection of fine named varieties, our selection, but especially recommend two outstanding varieties—**ROSALIE**, a soft pink, and **ROYAL SCARLET**, the best bright red for forcing. Supplied in third size bulbs, 16 to 17 cms. (*)

35c each; \$3.50 per doz.; \$27.50 per 100

HYACINTH GLASSES FOR HOME CULTURE

Available in two colors: Crystal, or green. **ONE EXHIBITION SIZE HYACINTH** (Your Choice of Colors) INCLUDED WITH EACH GLASS. (*)

\$1.25 per set; 3 Glasses and 3 Bulbs — \$3.00

DOUBLE ROSETTE HYACINTHS

Chestnut Flower*. Exquisite soft pink. Large flower. (1).
General Kohler*. Clear, heavenly blue. Broad spike. (2).
Mad. Sophie*. Double sport of L'Innocence. Fine. (3).
Sunflower*. Double yellow. Makes a small bulb. (2).
Victory Day*. Fine double red sport of La Victoire. (1).

We supply **First Size Bulbs**, 18 to 19 cm., the largest available in these varieties.

50c each; \$5.00 per doz.; \$35.00 per 100

FAIRY (MULTIFLORA) HYACINTHS

Borah*. Porcelain blue. A variety especially suitable for amateurs for indoor growing. Can be grown like Paperwhites or Roman Hyacinths. Produces up to 9 spikes.

	Per Doz.	Per 100
18 to 19 centimeters	\$3.50	\$25.00

IMPORTANT NOTICE

Because of the vast number of varieties we list, it is physically impossible for us to carry all of them in stock. Actually it is not necessary, as fast passenger steamers make the crossing in five to seven days, and we can get fresh stock from Holland to fill your order within a matter of weeks.

From September to January, however, we do carry on hand here at Farmington several million of the better more popular varieties of tulips, hyacinths, daffodils, crocus, and iris. **These varieties are listed on page 2 and when ordering these varieties you assure yourself of fast service, and tried and tested varieties.**

Imported Holland TULIP BULBS

WHEN BULBS ARE PRICED PER 100, 50 or more of a variety and size take the 100 rate.
EXPLANATION OF SYMBOLS: The letter (E) means variety is very early flowering; (M) stands for medium flowering, about a week after the early (E) varieties; (L) stands for late flowering—about 2 weeks later than early varieties. Numbers following letters indicate approximate height in inches. All bulbs are TOP SIZE, 12 centimeters and up—the largest available.

IMPORTED NARCISSI BULBS

The production of flowers in Daffodils and Narcissi is in direct ratio to the size of the bulbs. A large Double Nose 1 bulb should produce twice as many blooms as a Double Nose 11, and around three times as many as a Double Nose 111 or Round 1. So, in comparing our prices please bear in mind that our bulbs are not merely Double Nose, but Double Nose 1. They weigh considerably more; we have more freight to pay from Holland, and more postage to get them to you, but you gain in the end. 25 at the 100 rate.

GLADIOLUS—HERALD STRAIN

One of the earliest flowering gladioli, opening even before the nanus varieties. Flowers are large, well opened, brilliantly colored, and elegantly arranged on strong rigid upright stems. Each corn will throw up in succession 2-3 flower spikes. Can be planted outside in the Fall in the warmer climates for very early bloom, or can be forced in pots in the northern states.

	Per Doz.	Per 100
Charm Bright purple rose, white center	\$1.25	\$8.00
Comet Bright poppy red. Long elegant spikes. Very early. Height 40 inches	1.25	8.00

Rembrandt Bright red. Extra fine	2.00	14.00
Rainbow Mixture —Herald Gladioli	1.50	10.00

GLADIOLUS—HARLEMENSIS STRAIN

A new strain, definitely the earliest flowering of all gladioli. Start blooming in June. Stems are thin, but rigid and very strong, and do not bend in water. All buds open and develop well. Most of the varieties have elegantly waved margins. Not hardy in the north, but we're still going to try a few in a protected corner with southern exposure, and a good mulch. A strain of definite merit, especially to the florist who wants early blooms for fine artistic work that cannot be obtained with the bolder types of gladioli.

Ambition White tinged pink, brown stripe in throat.
Blue Gem Lilac with white, free-flowering.
Christine Pink, inside red.
Cream Star Creamy with lilac stripes.
Delight White, exterior dark pink. EXTRA.
Glitters Pure white. Tall and early.
Ivory Gem Creamy, edges elegantly waved.
Magnet Deep pink, creamy center. Early.
Myra White with violet. Exterior shaded violet.
Yellow Gem Creamy yellow with small stripes in the throat; exterior lilac pink. Early.
Rainbow Mixture—Harlemensis Gladioli.
Above: \$2.00 per doz.; \$14.00 per 100

GLADIOLUS NANUS (Early Flowering)

Amanda Mahy Bright salmon red, flaked violet.
Bloodstone Deep red flowers. Very pretty.
Blushing Bride White, bright carmine flakes.
Colvillii Albus The Bride Best pure white.
Colvillii Roseus Soft pink.
Colvillii Ruber Carmine red.
Nymph Pure white, crimson flakes. EXTRA.
Orchidiflorus Greyish green flowers; curiously shaped. A most unusual variety. \$1.50 each.
Peach Blossom Uniform delicate pink.
Spitfire Brilliant scarlet-vermillion.
Rainbow Mixture—Nanus gladioli
Above: \$1.00 per doz.; \$6.00 per 100

HAEMANTHUS (Blood Lilies)

Coccineus Scarlet flowers in autumn before the foliage is developed. \$2.50 each.
(H. Katherine and Multiflorus will be in Spring List.)

HERBERTIA PULCHELLA

A rare bulbous plant from Chile with uniform soft violet flowers in the summer. Height 6 inches.

Above: \$1.00 each; \$5.00 per 6

HESPERANTHA STANFORDIAE

A charming Cape bulb. Bright clear yellow flowers. Very distinct. Height 1½ feet. Treatment like Ixia.

\$1.50 per doz.; \$10.00 per 100

HIPPEASTRUM (Amaryllis Species)

Ackermannii Hardy to about Philadelphia. Deep crimson red, funnel shaped flowers \$7.50 each
Aulicum Scarlet red, winter flowering. A most beautiful species \$5.00 each
Bifidum Elegant species with orange scarlet blooms. Hardy to about Washington, or grow in pots like Nerines \$5.00 each
Reticulatum Striatifolium Pink flowers borne in the autumn A very rare species. Stocks limited \$10.00 each

HOMERIA

Another splendid Cape bulb, requiring same treatment as Ixia and flowering in June. Height 2½ feet.

Ochroleuca Soft yellow flowers.

50c each; \$5.00 per doz.

Ochroleuca Aurantiaca Soft orange flowers. Very fine.

\$1.25 per doz.; \$8.00 per 100

HOMOGLOSSUM SALTERI

A rare Iridacea from the Cape Province of South Africa. Bright red flowers in February. Height 2 feet.

75c each; \$7.50 per doz.;

HYACINTHUS

Small bulbs, not to be confused with regular Hyacinths, but resembling more the Muscari, or Grape Hyacinths.

Amethystinus Amethyst Blue, elegant spikes, in May.

Amethystinus Albus White form of above. Distinct.

\$1.00 per doz.; \$6.00 per 100

HYMENOCALLIS (Spider Lilies)

Interesting Amaryllids, whose beautiful flowers belie the common name "Spider Lily". The long, tenuous, curved filaments and segments only vaguely resemble a spider.

Daphne A new large flowered hybrid. Pure white.

Rotata Large umbel of white flowers on tall stem.

Speciosa Splendid species. Very large umbel. White.

Above: \$5.00 each.

IRIS—REGELIO-CYCLUS

A new strain of hardy free-flowering Irises of great beauty, imported from the world renowned Zwanenberg nurseries in Holland. These are hybrids between various species of the Regelia and the Oncocyclus sections. The flowers are strikingly veined on white, soft purple, or brown ground. They flower freely, and when cut in bud will develop fully in water. We offer a splendid Rainbow Mixture only.

50c each; \$5.00 per doz.

(List of named varieties on request)

IXIA (Corn Lily)

Another Cape bulb. Not hardy in the north unless extremely well protected. The small rigid stems and bright flowers make them ideal for cutting.

Afterglow Inside orange buff; outside soft rose.

Azurea Viridian-green and spectrum violet. Unusual.

Bridesmaid White, carmine eye. Free flowering.

Bucephalus Major Carmine. Extra fine variety.

Conqueror Inside dark lemon yellow; outside red.

Englishton Tyrian rose. Very free flowering.

Giant Pure white, purple center.

Hogarth Creamy yellow, purple eye. Extra fine.

Invincible Magnolia-purple.

Mary Magenta rose. Fine large round flowers.

Rossini Bengal rose with white center.

Rainbow Mixture—all colors.

Above: 50c per doz.; \$3.00 per 100

Viridiflora The Green Ixia. Pale green, purple eye. Exceptional color. Very scarce.

Wonder The double Ixia. Rose, white center.

75c each; \$7.50 per doz.

IXIOLIRION

A very hardy bulb producing blue tubular flowers quite late in the season. Fine for naturalizing.

Ledebourii Well opened, bright blue flowers. Early.

Pallasii Deep blue. Fine for cutting. Late.

Above: 50c per doz.; \$3.00 per 100

Miscellaneous Continued

LACHENALIA (Firecracker Plant)

An interesting, and extremely fine pot plant subject, fairly well known on the West Coast, but certainly not as popular as it deserves. Can also be grown outdoors in warm climates.

PANCRATIUM

Closely allied to *Ismene* and *Hymenocallis*, these bulbs are hardy in the South and West, and can be grown in pots elsewhere. Culture like *Amaryllis*.

Illyricum Umbel of 6 to 12 white flowers.

Maritimum Umbel of 5-10 white flowers. Fragrant.

\$1.00 each; \$10.00 per doz.

Paperwhite Narcissus

Italian Grown

If you have about given up trying to blossom Paperwhites, the bulbs you have purchased have probably been grown domestically, and quite possibly were "blind." It seems quite impossible to grow a good strain of Paperwhites in this country. But way down in the sunny toe of Italy they grow a very superior strain that is quite free flowering, and will restore your faith in the fine winter flowers.

Above: 50c per doz.; \$3.00 per 100

TRITONIA (Blazing Star)

Showy-flowered corms or bulbs used both as greenhouse, and summer flowering subjects. They are excellent for cutting, and their culture is the same as *Freesia*. The following fine hybrids are grown by Van Tubergen, and are not to be confused with *Montbretia* which are often called *Tritonia*.

Crocata *Incomparabile* Dark orange, transparent base.

Crocata *Isobella* Amber, softly shaded pink. Very fine.

Crocata *Princess Beatrix* Deep orange. Very tall. Rigid,

erect stems, and unexcelled for cutting.

Crocata *Roseline* Tall spikes of soft pink flowers.

Crocata *Tearose* Creamy with yellow center.

Crocata *White Glory* Fine large white flowers.

TOO LATE TO PLANT?

WE'LL HARDLY!!!

We would not risk our reputation, or your goodwill by offering these plants if we thought it was too late to plant!

Frankly, we never cease to be amused by people who say "Oh my, we would like to take advantage of your "End of Season" Sales, but it is much too late in our locality to plant." How little they know of the tenacity of plant life, and the terrific urge for survival latent in the simplest bulb!

For example, we all know that the supposedly "ideal" time to plant *Lilium Candidum* (Madonna Lily) is August. We do not argue with the "idealists". August is the best time to plant, but it certainly is not the only time!

Because we were too busy in the early Fall, and because of an early freeze later, we were unable to plant our surplus of *Lilium Candidum* until April of the following Spring!

These were planted eight months after the supposedly ideal time! But I wish you could look out our office window today (June 30th) and see the thousands of flower heads!

For a long time, it was preached that other lilies should be planted in the Fall, but that myth has long since been exploded, thanks partly to our efforts. Hence we offer the lilies herein with full confidence that they will grow if given reasonable care. They have been held in cold storage under proper temperature and humidity controls, and will be "rarin' to go" when you receive them.

Actually it has long been our theory that bulbs and plants respond faster when rested longer. Like humans after a good, long night's rest, they can perform two days' work the following day.

To further illustrate the fallacy of "proper planting time" we would point out that commercial gladioli growers plant just about year around. Commercial lily growers plant nine months of the year.

And as to the tenacity of bulbs for life, it is common to store many items two or three years. *Ranunculus* and *Anemones* are common examples. But in emptying some cases of sawdust, we found an amaryllis from the season before. After 12 months unplanted, it looked better than bulbs in pots. Many other amaryllis can be held dormant in storage a year or more.

We would also mention some Tree Peonies planted in mid-July last year that thrived and bloomed this Spring. In fact, our experiences with late, or "off season" plantings are so numerous that space prohibits us from relating them all!

So get your feet wet!!! Buy freely at these low prices, and fill your home, your garden, your greenhouse with color during the late summer and Fall! The hardy items actually will be a year ahead; the tender items, such as Begonias and Caladiums, can be plunged in pots outdoors, lifted in the Fall to finish flowering indoors, or allowed to go dormant in the pots for starting early next year for earlier blooms!

Add 15% to Cover Postage and Packing for items on these two pages. We simply cannot prepay postage at these prices.

LUDWIG'S FAMOUS DUTCH AMARYLLIS

Our unbounded enthusiasm for this fine strain caused us to over-order. We still have most varieties in storage in good condition. All are named, most listing from \$4.00 to \$7.50. We're closing them out at one low price. You may select varieties, but we reserve the right to substitute if necessary. LARGE BULBS.

\$2.50 each - 10 for \$22.50

VAN WAVEREN'S NEW STRAIN OF DUTCH AMARYLLIS

This 100-year-old firm has developed some fine varieties, including shades not found in the other Dutch strains. Quantities of each variety being very limited, we have grouped them into colors, and are clearing them out at one low price. LARGE BULBS.

COLORS: Crimson, Scarlet, Orange, Salmon, White, Pink, and Peppermint Striped.

\$2.00 each - 10 for \$17.50

ROYAL IMPERIAL JAPANESE AMARYLLIS

An extremely fine vigorous, free-flowering strain very fine for pots, or naturalizing in Southern gardens. Some bulbs are showing one or two bud spikes; many will produce two or three flower spikes, loaded with bloom. Mixed colors.

2 for \$1.00; 12 for \$5.00 25 for \$8.00

AMARYLLIS — Exhibition Mixture

Each year we flower hundreds of imported Dutch, Japanese, and Indian amaryllis for our exhibits at the various flower shows. In transit, the labels are usually lost, so we are forced to sell these extremely expensive, and exceedingly fine varieties at a fraction of their original cost. We offer these bulbs in a truly fine Rainbow Mixture at this low price:

\$1.00 each; 10 for \$7.50; 25 for \$14.50

GREENHOUSE ROSE PLANTS

The largest cut flower producer in Michigan replants certain houses each year, and we are privileged to be able to offer the plants that are removed at a special low price. True, these have produced cut flowers, but, if properly handled, they retain their vitality, and will continue to flower freely in the garden. And they are winter-hardy if protected as all roses must be in this latitude.

These plants produced premium blooms, selling at \$5.00 per dozen.

Potted — in bud and bloom

HARDY LILY BULBS — MAMMOTH GRADE

These bulbs are up to 1 foot in circumference — truly beauties that will produce abundantly this year yet, and for years to come. Nothing wrong with these bulbs but our enthusiasm. They were so beautiful and large we simply went overboard and ordered too many. You can assort the varieties. Can be shipped express collect.

Truly a great value at this low price:

We're pleased to announce the recent acquisition of . . . **A TRULY SENSATIONAL PURCHASE OF 2,000** **CHOICE CYMBIDIUM PLANTS**

After months of negotiations we have finally succeeded in purchasing this truly exceptional collection of mature, husky, blooming size Cymbidium orchid plants from one of the largest cut flower producers in the East!

When we say "husky", we mean just that! These plants are in 6, 7, and 8 inch pots — and they are crowding the pots. Over the Easter and Mother's Day holiday we had the privilege of seeing some of the cut blooms from these plants, and the sight of thousands of blooms at one time was truly breath-taking. At holiday time (when most varieties flower) these blooms commanded a retail price of \$2.00 and up! Imagine, then, what a value these are when we tell you that many of them produced from 50 to 150 blooms each.

These fine hybrids are not named, but, more important, were bred and developed over the years by this large commercial grower for those qualities demanded by the discerning retail florist — (1) clear lustrous colors; (2) fine texture of the blooms; and (3) long-lasting keeping qualities.

Years of painstaking hybridizing, selection, and re-selection went into the production of these fine hybrids, the parents of which were individually selected for the qualities desired. Many of the parents sold (and still sell) for prices of \$100.00 to \$150.00 each, some being even higher priced!

Actually it is a shame to have to sell these plants, as the cut flowers would return us much more than the plants themselves, but our greenhouse space is extremely limited, and we simply cannot accommodate them all.

The colors, of course, run the gamut of colors common to Cymbidiums, and are well assorted, as the commercial grower, to command premium prices, must have not merely quality, but a range of colors to suit the many needs of the different florists employing Cymbidiums in floral arrangements. In looking over the blooms, we noticed many whites, and near-whites, as well as lovely shades of rose, pink, green, chartreuse, yellow, etc. All are bright, clear colors as the florist will simply not accept drab colors.

All plants are blooming size, and most can easily be divided. Since many of the plants are extremely large, we would recommend shipment of large orders by motor freight. This way you can include a bag or two of Fir Bark to use in re-potting (see below). The plants are presently in Osmunda, which we like, as the roots will hold up better in a ball during shipment. But we strongly recommend the use of fir bark when re-potting.

When ordering, you may specify colors desired, but we reserve the right to substitute if necessary. If no substitutes are desired, please so state when ordering. Plants shipped in, or out, of pots — as specified by the buyer. (We think they pack and travel better out of the pots!). Motor freight, or express charges are collect, and may be paid on delivery.

\$5.00 each; 6 for \$25.00; 15 for \$50.00

WHITE VARIETIES ONLY: \$7.50 each; 4 for \$25.00

CYMBIDIUM BACK BULBS

Undoubtedly the cheapest way to get a start, Cymbidium back bulbs are easy to grow if you follow the simple instructions we include with your order.

We Also Continue to Buy up Collections of Other Varieties, Which We Offer As Follows:

CATTLEYA ORCHID PLANTS

Mature, blooming size plants — sometimes actually in sheath. Pot size ranges from 4 to 7 inches, and most can be divided and repotted. Hundreds of varieties are included, including whites, white with purple lip, etc. Shipped out of pots.

\$5.00 ea.; 6 for \$25.00; 15 for \$55.00 (all postpaid)

DENDROBIUM ORCHID PLANTS

Mature, blooming size plants. Denbrosiums are ideally suited for culture in the home, as their temperature requirements closely parallel those in the average home, both day and night. These are fine varieties flown in to us from Hawaii. Quantity limited. Out of pots.

\$5.00 ea.; 6 for \$25.00; 15 for \$55.00 (all postpaid)

STRAP LEAF VANDA HYBRIDS

Mature, blooming size plants, also ideally suited for culture in the home, as their temperature requirements closely parallel those in the average home, both day and night. These are fine varieties flown in to us from Hawaii. Quantity limited. Out of pots.

\$5.00 ea.; 6 for \$25.00; 15 for \$55.00 (all postpaid)

FIR BARK FOR RE-POTTING ORCHIDS

Medium ground for mature plants.

Small Bag — 2½ qt. size — **75c per bag**

Large Bag — 2 cubic feet — **\$5.95 per bag**

(Large bag weighs 50 pounds, and is sent via motor freight collect).

PLASTIC POTS FOR RE-POTTING

Plastic pots are clean and durable. They cut down on labor required for watering and handling, and, of course, are attractive in the home.

	Per 6	Per 12	Per 25

ORCHIDS MAKE EASY HOUSE PLANTS

... as is proven by the tens of thousands now growing them. If you have any qualms, send 25c to the UNIVERSITY OF CALIFORNIA, COLLEGE OF AGRICULTURE EXPERIMENTAL STATION, BERKELEY, CALIFORNIA, for their wonderfully illustrated 66-page booklet on "ORCHIDS" by H. M. Butterfield. It is the most concise, yet most thorough book on orchids we have ever seen. It covers every species. Or you may add 25c to your order and we will send it from here.

What is a Bargain?

The word "bargain" can be a verb, as "to bargain," or a noun, as is the case in regards to the offers on this page. The dictionary defines the noun as "Something bought or offered for sale at a price regarded as unusually cheap".

We feel quite sure that any discerning gardener will readily grant that the offers on this page meet the demands of this definition.

But, on the other hand, these "Bargains" do constantly cause confusion in the minds of some of our customers, who will ask, for example, "How can you sell Crocus 50 for \$1.00 when in your regular price list they are twice as expensive (or more)?"

The answer is not difficult to give—in the case of Crocus there are four different sizes. The smaller bulbs cost us less, and we sell them for less!

In the case of tulips, there are actually seven different sizes, with a very wide variation in price. So it goes through the whole gamut of bulbs.

Elsewhere in this booklet we offer ONLY TOP SIZE BULBS! Mind you, not First Size—the size sometimes offered by mail order firms because they weigh less; and invariably sold by chain and department stores because the cost less, but TOP SIZE. In the case of Tulips, this means the bulbs must measure 12 centimeters or more; in the case of Crocus, 10 centimeters or more; in the case of Narcissi and Daffodils, that they must be Double Nose No. 1 Grade—Not merely Double Nose 11 or 111 or Round 1!

Of course, there are exceptions to the rule! Species bulbs, whether they be Tulip, Narcissi, or Crocus, simply do not make big bulbs, so here Top Size stands for the largest size bulb the variety can produce under normal conditions.

Most experienced gardeners prefer TOP SIZE BULBS, and understandably so! The flowers are larger, and more abundant. But in the modern world, there has been a drastic change in living habits. Today we have SUBURBIA—wherein dwell young homemakers with limited income who want the most they can get for their dollar; and somewhat more affluent neighbors with large acreage who require huge amounts of bulbs for massed effects or naturalizing. Both groups are looking for the same thing—as many bulbs as they can get for their money!

So, over the years our "2c Bargains" and our "\$1.00 Bargains have found wide acceptance among avid gardeners, straddled with mortgage payments, installment payments, bills from the obstetrician, or what have you.

These "Bargains" have been advertised for years in the leading horticultural magazines—FLOWER GROWER, POPULAR GARDENING, AND FLOWER AND GARDEN. The amazing thing is that instead of declining from year to year, each year the sales increase from these very same ads, which hit the very same people. The reason, we feel, lies in the number of customers who re-order year after year, and who also spread the good word to their neighbors!

So while these bulbs may not be Top Size, do not hesitate to order them. We guarantee them to be blooming size, true to description and name, free from insects or disease, and to satisfy in every respect—or your money will be refunded, provided, of course, that you contact us within 10 days of receipt.
